

# **Doha downgrades solar panel manufacturers**

## Overview

---

How has Qatar improved its solar energy sector?

Since the launch of Al Kharsaah plant in 2022, with an initial capacity of 800 megawatts, Qatar rapidly enhanced its solar energy sector, doubling its capacity within just three years, which is a remarkable achievement in itself.

Is Qatar undergoing a significant transformation in its energy sector?

Doha: The State of Qatar is undergoing a significant transformation in its energy sector since 2022, with the launch of Ras Laffan and Mesaieed solar power plants on Monday.

How many megawatts does Qatar's new solar plant produce?

The addition of 875 megawatts from these two new solar plants, along with the 800 megawatts produced by the Al Kharsaah plant that came into service in 2022, will bring Qatar's total solar energy production capacity to nearly 1,700 megawatts.

Which country is developing a massive solar project in Dukhan?

Moreover, Qatar Energy continues to develop a massive solar project in Dukhan area with a production capacity of 2,000 megawatts, set to become one of the largest solar plants globally. It is expected to be operational by the end of this decade.
