

# Dsm uninterruptible power supply

## Overview

---

What is a DSM UPS system?

ON-line 80-800kVA 3 Phase UPS, 400V The DSM series UPS system is an on-line UPS system, which operates continuously and provides non-stop power protection for your servers or other applications. On-line UPS systems feature a much higher efficiency than off-line systems, and the DSM series UPS has a 0.99 input power factor.

What is a DSM power supply?

DSM series (80-640KVA) As a leading UPS supplier in China, SCU provides DSM series industrial uninterruptible power supply that has super power grid adaptability and load capacity, higher protection level and multiple operation modes.

Does ups support shutting down by DSM?

Some UPS devices do not support shutting down by DSM. Before using the UPS in production environment, please conduct a power outage simulation test to determine if the UPS performs as expected. To conduct the test, tick Shut down UPS when the system enters Standby Mode, click Apply, and manually remove the power cable of the UPS.

What is the difference between a DSM and a Smart UPS?

On-line UPS systems feature a much higher efficiency than off-line systems, and the DSM series UPS has a 0.99 input power factor. Smart UPS On-line 10kVA RM/RT 400V This is a smart on-line UPS system with module power of 10kVA, and input/output method options of 1/1, 1/3, 3/1, 3/3 phase mode, and supports rack-mount or tower mounting options.
