

Dutch energy storage container manufacturer

Overview

What is the Netherlands Advancion energy storage array?

The Netherlands Advancion Energy Storage Array was commissioned in late 2015 and provides 10 MWh of storage to Dutch transmission system operator TenneT. The project, which represents 50% of all Dutch energy storage capacity, provides frequency regulation by using power stored in its batteries to respond to grid imbalances.

Are all energy storage facilities in the Netherlands electro-chemical?

All energy storage facilities in the Netherlands are electro-chemical, with the exception of the contracted 1 MW Hydrostar underwater compressed air energy storage project in Aruba (Caribbean). Hydrostar is a Canadian company specializing in underwater compressed air energy storage technologies.

Who is energy storage NL?

Energy Storage NL is the subject matter expert on energy storage and conversion technology. We promote awareness and knowledge about the current and future role for energy storage and conversion in the energy system. Energy Storage NL represents the broad energy storage sector towards governments and external stakeholders.

Why should the Netherlands accelerate the energy transition?

The Netherlands must accelerate so as not to miss opportunities. Energy storage is the missing link in the energy transition. Without large-scale deployment of batteries, heat buffers and hydrogen storage, the Netherlands risks falling behind in Europe and becoming more dependent on foreign players.
