

# Earth leakage breaker factory in South-Africa

## Overview

---

What are earth leakage circuit breakers?

Earth Leakage Circuit Breakers are available in a selective range of sensitivity. This ensures that in the event of an earth fault downstream of the installation, only the defect part is switched off. Residual current devices (RCDs), like ground fault circuit interrupters (GFCIs), detect electrocution currents and cut power off immediately.

Do I need a breaker to use an earth leakage unit?

Note: Earth Leakages are the normal Isolator Type, and therefore will require to be used in conjunction with a mains circuit breaker. Earth Leakage Units comply to all the required South African and International Compulsory Specifications. RCC available on request. GFP Electrical Wholesalers.

Where can I buy Earth leakages?

Brite Lighting & Electrical offers a wide range of Earth Leakages for sale. Buy Online or In-Store. Delivery Available.

Why is South Africa a world leader in earth leakage protection?

For more than a decade, South Africa led the world in the production and application of high sensitivity core balance earth leakage protection devices, and was the first country in the world to require mandatory installation of earth leakage circuit breakers to all 220/250 Volt socket outlets.
