Is East Timor interested in solar power?

East Timor President José Ramos-Horta told The Associated Press in an interview in Dili last week that his country is interested in exploring various types of renewable energy sources, including wind, sea and especially solar power. "We have plenty of sun," he said, adding that the cost of solar technology continues to fall.

Does East Timor have electricity?

Recovery was slow after East Timor gained formal independence in 2002. By 2015, just 60% of the population had access to electricity, according to the World Bank. Efforts to electrify the country have jumped since then, with 100% of residents having access to electricity since 2021, according to the International Renewable Energy Agency.

Can East Timor transition its energy sector?
