

# Energy Storage Project Standards

## Overview

---

Are energy storage systems compliant?

Energy storage systems continue to be a rapidly evolving industry. Thus, the key to safe and up-to-date compliance requirements involves the adoption and application of codes and standards in addition to the development or writing of codes and standards.

Are energy storage codes & standards needed?

Discussions with industry professionals indicate a significant need for standards. " [1, p. 30]. Under this strategic driver, a portion of DOE-funded energy storage research and development (R&D) is directed to actively work with industry to fill energy storage Codes & Standards (C&S) gaps.

What's new in energy storage safety?

Since the publication of the first Energy Storage Safety Strategic Plan in 2014, there have been introductions of new technologies, new use cases, and new codes, standards, regulations, and testing methods. Additionally, failures in deployed energy storage systems (ESS) have led to new emergency response best practices.

Does industry need energy storage standards?

As cited in the DOE OE ES Program Plan, "Industry requires specifications of standards for characterizing the performance of energy storage under grid conditions and for modeling behavior. Discussions with industry professionals indicate a significant need for standards. " [1, p. 30].

Selected Energy Storage Safety C& S Challenges Energy Storage Safety C& S and Technology Challenge Energy Storage Performance C& S and Pace of Technology Development Challenge The challenge in any code or standards development is to balance the goal of ensuring a safe, reliable installation without hobbling technical innovation. This hurdle can occur when the requirements are prescriptive-based as opposed to performance-based. Using the deflagration prevention topic discussed earlier, an example might be a requirement for See more on link.springer .sb\_doct\_txt{color:#4007a2;font-size:11px;line-height:21px;margin-right:3px;vertical-align:super}.b\_dark .sb\_doct\_txt{color:#82c7ff} Pacific Northwest National Laboratory [PDF] Microsoft Word - Study of Codes Standards for ...
