

# **Energy storage device for office building in Malaysia**

## Overview

---

What is energy storage system in Malaysia?

Outlook of energy storage system in Malaysia Energy storage is one of the emerging technologies which can store energy and deliver it upon meeting the energy demand of the load system.

What is battery energy storage system (BESS)?

Battery Energy Storage System (BESS) gives businesses the power to reduce peak demand, optimise solar generation, and build a more stable, cost-efficient energy strategy. The battery solution is designed for medium and high voltage buildings seeking smart, reliable, and cost-effective energy strategies.

Can EV batteries be used as energy storage in Malaysia?

Additionally, the repurposed EV battery can serve as a storage for residential homes integrated with photovoltaic (PV) or portable battery bank for EVs. Therefore, the prospect of second life energy storage in Malaysia could potentially grow with the advancement of EV technology in years to come. 3.

What is a battery energy storage system?

Our Battery Energy Storage System (BESS) stores surplus energy efficiently for later use - improving your solar utilisation rate and reducing grid dependency. Enjoy peace of mind knowing your energy storage system can provide backup power during unexpected outages.
