

# **Energy storage equipment installation at Johannesburg Airport in South Africa**

## Overview

---

What is battery energy storage in South Africa?

In South Africa, Battery Energy Storage is a key aspect of the first-of-its-kind hybrid project, Oya. Straddling the Western and Northern Cape Provinces, the hybrid facility will offer 86MW wind and 155MW Solar PV dispatchable power, coupled with 92MW/ 242 MWh battery energy storage.

Where will solar PV plants be located in South Africa?

Image: Olga Ernst, Wikimedia Commons Airports Company South Africa (ACSA) has issued a tender for three solar PV plants to be located at three different airports in the country. The three proposed projects will be based at Tambo International Airport, King Shaka International Airport, and Cape Town International Airport.

Which South Africa airports have a solar PV tender notice?

Pic: King Shaka International Airport - Durban, South Africa. Image credit: ACSA The state-owned Airports Company South Africa (ACSA) has issued tender notices for solar PV plus battery plants at six of its airports. Solar PV Tender number: COR7739/2025/RFP.

What is the largest battery energy storage system in Africa?

Unveiled in 2023, thanks to \$195 million from the International Bank for Reconstruction and Development (IBRD) and \$220 million from AfDB, this flagship project represents the largest battery energy storage system (BESS) on the African continent.
