

Energy storage power station in Cebu Philippines

Overview

Is Aboitiz Power Building a hybrid battery energy storage system in Cebu?

MANILA, Philippines — Aboitiz Power Corp. is building a 30-megawatt hybrid battery energy storage system (BESS) project within the Mactan Economic Zone in Cebu. Slated for commissioning in the first half of 2026, the project is poised to become one of the first large-scale energy storage systems in Central Visayas.

Where is Cebu energy power station located?

a Global Energy Monitor project. Cebu Energy power station is an operating power station of at least 246-megawatts (MW) in Toledo City, Cebu, Central Visayas, Philippines. Loading map. Unit-level coordinates (WGS 84): This ownership tree is part of the Global Energy Ownership Tracker, a project of Global Energy Monitor.

How much does Cebu energy cost?

The 246 MW Cebu Energy power station consists of 3 x 82MW coal-fired generators. Units 1 & 2 began operating in 2010, and Unit 3 began operating in 2011. The station is operated by Cebu Energy Development Corporation. The project was estimated to cost P23 billion (approximately 500 million USD).

What is a hybrid energy storage system in Central Visayas?

Considered one of the first large-scale energy storage systems in Central Visayas, the hybrid BESS will provide ancillary services by storing surplus electricity and releasing it to the grid when needed to help stabilize power supply.
