

Factory price 2 4 kw inverter in London

Overview

How much does a 200KW inverter cost?

of 200kW inverter is about \$10k. BRUSA systems are for OEMs they will keep small guys away by artificially higher pricing - standard practice in industry. for 400kW peak. Should get this hardware by the end of the year for people. Have fun with your projects, visit metric mind toward the end of the year for better systems.

Where can I buy an inverter drive?

Kempston Controls stocks a wide and varied range of inverter drives and motor drives from market leading manufacturers such as Eaton, Omron, IMO, Moeller and many more to cater for all your inverter drive requirements. Give our dedicated sales team a call on +44 (0) 1933 411411 or use the contact form above to discuss your inverter requirements.

What are inverter drives?

Inverter drives are sometimes called AC drives, Variable Frequency Drives (VFD), Variable Speed Drives (VSD), electric drives, and frequency converters. Inverter drives are situated between the electrical supply and a motor, and the drive is designed to regulate the power and convert it from AC to DC power.

How does an inverter work?

Within the inverter drive the input power is regulated and is fed through an inverter circuit converting the incoming power from AC to DC, allowing you to alter the output voltage and frequency depending on what your industrial process demands.
