

Farad Supercapacitor Manufacturer in Penang Malaysia

Overview

Why is supersic establishing a manufacturing facility in Penang?

Dato' Loo Lee Lian, Chief Executive Officer of InvestPenang, said: "SuperSiC's decision to establish its manufacturing facility in Penang underscores the state's position as a leading hub for high-tech industries and advanced manufacturing.

What makes Penang a good semiconductor company?

Penang's mature semiconductor ecosystem, strategic geographic location, and abundant talent pool provide an ideal environment for the R&D and production of compound semiconductor materials. The site also positions the company to deliver efficient and agile customer service with high responsiveness.

Why is JSG launching supersic in Penang?

The Penang facility represents a pivotal milestone in JSG's international strategy, enabling the launch of SuperSiC's localised production layout in the Southeast Asian market and the start of a new chapter of deep collaboration with the local semiconductor industry ecosystem in Malaysia.

Who is maxcap electronics?

Maxcap Electronics developed from humble beginnings. Since then, we have grown from strength to strength - increasing our production lines from four to 22, and continuously enjoying a steady growth in our annual sales turnover. Our products go through strict and extensive quality control scrutiny.
