

# Financing for a 30kWh Solar Container Project in Mauritania

## Overview

---

How will Mauritania's new solar power project help agri-food industry?

The project will provide rural electrification for 40 localities in south-eastern Mauritania, through the installation of hybrid mini photovoltaic power plants and the construction of connecting lines. The project will also support value-creating activities, especially in the food cold chain and agri-food processing.

How does the piemm project work in Mauritania & Mali?

The PIEMM will boost solar energy production and provide access to electricity for more than two million people in Mauritania and Mali, while also enhancing regional integration and trade. The project is financed by a \$272 million loan from the African Development Fund, the concessional window of the AfDB, and a \$1.5 million grant from the GCF.

How much money does Mauritania receive from the AfDB & GCF?

Her fiction and non-fiction narratives captivate and resonate with a diverse audience, showcasing her versatility and depth as a writer. Mauritania receives \$289.5 million from the AfDB and the GCF to develop solar power generation, transnational electricity interconnection and rural electrification.

Who signed the AfDB financing agreements in Mauritania?

The financing agreements were signed on Thursday in Nouakchott by Mauritania's Minister of Economy and Sustainable Development, Abdessalam Mohamed Saleh, and the AfDB's Deputy Managing Director for North Africa, Malinne Blomberg.
