

Fire extinguishing solution for industrial and commercial energy storage cabinets

Overview

Why do you need a fire suppression system?

Tested and proven, they ensure rapid, efficient fire control, making them essential for safeguarding your battery storage solutions. Firetrace International's focused suppression systems are the industry-leading option to suppress fires in electrical control cabinets and PCS.

What is a rack-mount fire suppression system?

Our rack-mount fire suppression system greatly reduces fire damage with 1.5 m³ to 3 m³ volume coverage, and cross zone smoke detection. Contact us to learn more about the fire suppression solution best suited to your premises. Fire protection when water isn't an option.

What is a SIL-certified fire and gas detection system?

SIL-certified fire and gas detection with chemical, oil and energy expertise. With flexible integration and simple installation, operation and maintenance. Fire protection when water isn't an option. For highly critical applications to detect smoke, flame and toxic gas leaks. Search for brochures, bulletins, case studies and more.
