

# Fully covered roof with solar panels

## Overview

---

Are integrated solar roofs maintenance-free?

Integrated solar roofs are maintenance-free because they replace traditional roof covering, eliminating the need for maintenance like removing snow, ice or tree leaves that tend to accumulate under conventional solar panels. What's more, since integrated solar roofs don't have bolts, they don't require regular fastener inspections.

What is a solar roof?

Roofit.solar solar roofs, on the other hand, are often accepted by authorities – they look like a regular metal roof. weather and produces sustainable energy at the same time. Our solar roof reduces your electricity costs and produces solar energy for your home. For decades to come.

Can a solar full roof fit a sloped roof?

Absolutely, if your roof is sloped with a minimum pitch of 18 degrees. The Solar Full Roof is designed to integrate seamlessly with various architectural styles. Whether you're looking for a complete solar roof or a blend of solar panels with your existing roofing material, our system can be tailored to fit.

How to choose a solar full roof?

The Solar Full Roof is suitable for sloped roofs with a minimum pitch of 18 degrees to ensure water-tightness. For the underlayment, choose one that can withstand temperatures up to 120°C as a safety measure.
