

Gaborone 100-megawatt energy storage project

Overview

Will China build a 100-megawatt solar power plant in Botswana?

A Chinese consortium, led by China Harbour Engineering Company, has secured a contract to build a 100-megawatt solar power plant in Botswana. This project supports the country's revised Integrated Resource Plan, which aims for a 50% renewable energy share by 2036. Scheduled for completion in 2026, the solar plant will.

How much does Botswana's solar project cost?

The project is a key development in Botswana's renewable energy sector, marking the country's second utility-scale solar facility. The contract which is valued at \$78.3 million includes partnerships with China Water and Electric Development Co. and local investors.

Will China's solar project influence Botswana's energy landscape?

The project is likely to attract significant attention from both domestic and international stakeholders, given its potential to influence Botswana's energy landscape for years to come. A Chinese consortium, led by China Harbour Engineering Company, has secured a contract to build a 100-megawatt solar power plant in Botswana.

Where is Scatec ASA building a solar power plant in Botswana?

In March, Scatec ASA began construction of a 100-megawatt solar power plant in Botswana's northeast. The initial 60 megawatts of this project are expected to come online by the end of this year. The Ministry of Minerals and Energy is also working on additional renewable energy projects.
