

Government subsidies for solar panels on roofs

Overview

What is a solar panel government subsidy?

A solar panel government subsidy is like a financial boost from the government to help you afford solar panels. These subsidies, which may include tax credits, rebates, or grants, aim to make renewable energy more accessible to homeowners and businesses.

Will government give subsidies for rooftop solar panels in 2024-25?

The Budget 2024-25 emphasised this yojana and provided that the government will give subsidies for the installment of solar panels to 1 crore households. Under this scheme, subsidies are provided for installing rooftop solar panels for residential houses to supply power to households.

What are solar subsidies & how do they work?

These subsidies, which may include tax credits, rebates, or grants, aim to make renewable energy more accessible to homeowners and businesses. By reducing the initial investment, they encourage widespread adoption of solar technology, promoting environmental sustainability and reducing reliance on fossil fuels.

Could rooftop solar panels save £500 a year?

Families could save around £500 a year on their energy bills by installing rooftop solar panels as part of the government's rooftop revolution - making working people better off through the Plan for Change.
