

Guinea s uninterruptible power supply company

Overview

Does Guinea have a hydropower plant?

Guinea's hydropower plants (Kaleta and Souapiti) now supply clean energy domestically and export 1,174 GWh annually to Senegal, The Gambia, and Guinea-Bissau, supporting regional energy transition and reducing reliance on fossil fuels.

Is Guinea the water tower of Africa?

The electricity sub-sector has continued to build its capacity and reform its regulatory and institutional framework. Guinea, which is known as "the Water tower of Africa", could be the main player in the electricity market in West Africa.

How has Guinea changed over the years?

Guinea's transformation is a striking example of this progress. Since 2015, its electricity export capacity has surged from virtually zero to 440,000 KVA, exceeding expectations and contributing to the full interconnection of the WAPP network.
