

H1 solar inverter

Overview

What is H1 series inverter?

H1 series is a low-voltage single-phased hybrid inverter for residential energy storage use. Its power output ranges from 3-6kW and has 3 easy setting modes of use. H1 series also supports 24hrs load monitoring and zero export solutions. Battery supported fast charging/ discharging.

Are unauthorized perforations or modifications allowed in a H1 series solar inverter?

No unauthorized perforations or modifications Any unauthorized perforations or modifications are strictly forbidden, if any defect or damage (device/person) occurred, SAJ shall not take any responsibility for it. H1 series products are hybrid solar inverters without transformers, and the inverters are important components of energy storage systems.

What is a sun2000 330kti-h1 smart PV controller?

The HUAWEI SUN2000-330KTL-H1 Smart PV Controller is uncompromisingly powerful inverter for the conversion of PV solar energy into grid-compatible AC power for on-site use, ESS storage, or grid support. With a 330 VA power output and a 500-1500V MPPT range, it ensures high yields for large systems.

What is H1 series?

H1 series also supports 24hrs load monitoring and zero export solutions. Battery supported fast charging/ discharging. H1 series supports 150% oversizing & 110% AC overloading for higher yield. To protect the household applicants more smartly with UPS Function.
