

HNS solar Inverter

Overview

What is a afore HNS series single-phase inverter?

The Afore HNS Series Single-phase inverters are designed for residential PV system applications, rating from 3kW to 6kW. All models have unibody housings with aluminum structure which is anodized, increasing durability and effectively prevents corrosion.

Who makes a high efficiency solar inverter?

Afore New Energy High efficiency solar inverter manufacturers, 1kW to 60kW solar inverter for home and inverter commercial. Afore is the world's leading manufacturer of PV string inverters and energy storage inverters, with a history of 11 years. Common search.

Why do inverters have unibody housings?

All models have unibody housings with aluminum structure which is anodized, increasing durability and effectively prevents corrosion. Equipped with external inductors, the unibody housings can ensure efficient heat dissipation, which significantly improves the reliability and extends the life of the inverters.
