

High quality hybrid inverters in Canberra

Overview

Are hybrid inverters a good choice for home solar?

As solar technology improves, hybrid inverters are now key for home solar systems. In 2025, the best hybrid inverters are efficient, reliable, and suited to Australia's energy needs. A hybrid inverter is a device that lets you use more of your solar power, save money by using less electricity from the grid, and keep the lights on during blackouts.

What is a hybrid solar inverter?

A hybrid solar inverter is a piece of equipment that is created by combining a solar inverter and a battery inverter into a single unit. This allows the hybrid solar inverter to intelligently handle power coming from your solar panels, solar batteries, and the utility grid all at the same time.

Which hybrid inverter is best for Australian homes?

In the middle range, SolarEdge has a rating of 8.3, and GoodWe is at 7.8, which are decent but not the best. Solis and Growatt are tied at 7.0, showing average performance. Sigenergy scores 6.8, and SolaX is the lowest at 6.5. The graph makes it easy to see which hybrid inverters are the most reliable for Australian homes. Still confused?

.

How do hybrid inverters operate?

Hybrid inverters primarily operate by directly powering household loads from solar panels. If the solar array generates more power than is being used, the excess solar energy is diverted to charge the battery. This is the default operating mode or power flow direction for most hybrid inverters.

High quality hybrid inverters in Canberra

Solar inverters
