

# High quality lfp powerstation in Spain

## Overview

---

Which Chinese companies are building a lithium phosphate battery plant in Spain?

Credit: CATL China's CATL and Dutch-based Stellantis have broken ground on a €4.1 billion (\$4.75 billion) lithium iron phosphate (LFP) battery plant in Spain's Aragon region, one of the largest Chinese investment projects in the country. The facility will run entirely on renewable energy and is scheduled to start production by the end of 2026.

Will stellantis build a lithium phosphate battery plant in Spain?

Stellantis and CATL have announced plans to jointly build a 4.1 billion euro (\$4.3 billion) lithium iron phosphate battery plant in Spain.

Will CATL build a large-scale LFP battery production facility in Spain?

CATL first announced the joint venture with Stellantis in December 2024, aiming to establish a large-scale LFP battery production facility in Spain. Construction will involve approximately 2,000 Chinese technical staff and construction workers, followed by the recruitment and training of roughly 3,000 local Spanish employees.

Will a Chinese battery company build a joint venture plant in Spain?

Chinese power battery giant Contemporary Amperex Technology Co Ltd (CATL, SHE: 300750) plans to build a joint venture plant in Spain with European carmaker Stellantis to consolidate its leadership position in the battery sector.
