

# Home battery storage in China in Spain

## Overview

---

Will Gotion build energy storage plants in Spain?

(File photo shows a Gotion battery. Image credit: CnEVPost) Volkswagen-backed Chinese battery giant Gotion High-tech (SHE: 002074) plans to build energy storage plants in Spain as it continues to advance its efforts in international markets.

What is Spain's energy storage program?

For stakeholders in battery storage, thermal storage, and pumped hydro, this program offers not only financial backing but also long-term stability and political support. Spain has launched a €700 million energy storage program to support battery, thermal, and pumped hydro projects, aiming to deploy 2.5–3.5 GW of capacity.

How has Spain strengthened its energy infrastructure?

Spain has taken a decisive step in strengthening its energy infrastructure with the launch of a €700 million support scheme aimed at expanding large-scale energy storage across the country.

Which EV batteries are available in China?

Gotion has launched the G-Current, which supports ultra-fast charging, the Stellar Battery, a large cylindrical battery, and announced the Gemstone, an all-solid-state battery. Lei Kang joined CnEVPost in October 2022 and has been sharing exciting things about the EV industry in China since then. Contact the team: [phate@cnevpost.com](mailto:phate@cnevpost.com).
