

# Home battery storage subsidies

## Overview

---

How much does a battery subsidy cost?

Now, it's \$2,000 and it is likely to reduce still further. Whilst the value has reduced, this battery subsidy is a great way to reduce the cost of home battery storage and – as a bonus – generate passive income through participation in virtual power plants.

Does South Australia provide a subsidy for battery storage?

The South Australian Government provides a subsidy for the cost of battery storage and offers low interest finance. More information can be found through the link below. [South Australia Home Battery Scheme](#).

What is the \$2.3 billion cheaper home batteries program?

The \$2.3 billion Cheaper Home Batteries Program is now available to help more people install batteries. Australia is a world leader in rooftop solar with more than 4 million rooftop solar photovoltaic (PV) systems. However, before the program, only one in 40 households had installed batteries.

Where can I get a solar battery subsidy?

The battery subsidy is paid directly to your Solar Retailer, who deducts that amount from your quote. You can only get the subsidy if you purchase through a Solar Retailer that's approved as a Provider under the South Australian Home Battery Scheme. Solar Run is an approved Provider.
