Overview

What is arc flash relay?

Featuring factory-installed Arc Flash Relay modules and sensors, the system is designed to rapidly detect and clear even the most difficult forms of arc flash events in low-voltage (LV) and medium-voltage (MV) electrical assemblies. Arc faults are the most dangerous type of fault in LV and MV switchgear.

What is a SELCO arc flash relay?

Circuit breakers or overcurrent protection devices alone do not provide optimal protection for your personnel and equipment. A SELCO Arc-Flash Relay rapidly detects an arc flash and sends a trip signal to interrupt power in milliseconds.

What is a Littelfuse arc flash relay?

Littelfuse arc-flash relays provide superior protection against the damaging effects of arc flashes. These market-leading, arc-flash relays deliver reliable, easy-to-install protection with plug-and-play functionality, making them as easy to retrofit into existing switchgear as installing them into new equipment.

What are arc faults in LV and MV switchgear?

Arc faults are the most dangerous type of fault in LV and MV switchgear. Eaton's Arc Flash Relay system reduces the arc energy by clearing the current feeding the arc.
