How much does Georgetown solar panels cost

Overview

How do I find a reputable solar installer in Georgetown?

To find a reputable solar installer in Georgetown, make sure they provide a consultative, professional solar experience. If you're also purchasing a solar battery system, ensure they have proven experience with those products too. EnergySage simplifies the process by making it easy for you to find such installers in Georgetown, TX.

How much do solar panels cost?

The price of solar panels changes depending on where you live, but the average for installation is just under $29,000 or $2.75 per watt. On the high end, we talked to a solar customer in Hawaii who spent $100,000 going solar. Dion in Nevada said their 10-kW system cost about $20,000, which is about the national average price for a 7-kW system.

How much does a solar system cost in 2025?

Solar panels generate "free" electricity, but installing a system still costs money. A typical American household needs a 10-kilowatt (kW) system to adequately power their home, which costs $28,241 in 2025. That price effectively drops to $19,873 after considering the full federal solar tax credit.

How much does a 6 kW solar panel installation cost?

The average 6-kW residential solar panel installation is $17,852 before incentives. Learn about cost factors, financing options, tax breaks and more.
