

# How much does it cost to store energy at home in Slovenia

## Overview

---

How much does electricity cost in Slovenia?

With the cost of electricity today in Slovenia it is 13.95 € cheaper to charge at the hours with the lowest price. Heating is one of the things that consumes the most electricity in a typical home. You save about 5% of the costs for heating for every degree you lower the interior temperature. What is a kWh?

.

What is Slovenia's energy sector?

Slovenia's energy sector is marked by a balanced mix of sources. The country's electricity generation is largely reliant on nuclear power and hydroelectricity. Nuclear energy, primarily from the Krško Nuclear Power Plant, plays a crucial role in meeting domestic electricity needs while ensuring energy stability.

Who owns Energy in Slovenia?

By 2030, Slovenia aims to cap primary energy demand at 6.4 Mtoe and to cover 27% of final energy consumption with renewables. HSE, a state-owned company, represents 56% of the power generation. Geoplin dominates the gas market (76% of the wholesale market and 45% of the retail market). National company Petrol is the largest fuel retailer.

What is Slovenia's energy strategy?

This blend of nuclear and hydroelectric power forms the backbone of Slovenia's energy strategy, aligning with its environmental goals and energy needs. As a member of the European Union, Slovenia is an active participant in the EU electricity market.
