

Huawei grid-connected inverter in Manchester UK

Overview

Should you buy a solar hybrid inverter from Huawei?

The solar hybrid inverter from Huawei it is ideal for those situations where battery storage is considered as an optional choice. Maybe you want to look at bringing battery storage into an already installed home system. In that case you would just replace the old inverter with this one, by removing the older standard string tie inverter.

Where are Huawei inverters used?

Their products are used in more than 170 countries, by over three billion people. Huawei inverters are used at the world's largest single PV plant, tracking system PV plant and rooftop-mounted PV plant. Huawei's parent company is Huawei Investment & Holding.

Are Huawei inverters safe?

All Huawei inverters have over 98% peak and EU efficiencies, a minimum of IP65 protection rating, a minimum of 4 MPPT trackers per unit, and in-built safety features. Their commercial range also offers IV curve diagnosis, and there are high voltage versions of the larger sizes too.

What if my Huawei inverter is out of warranty?

The old inverter may be out of warranty, therefore by installing this new product you will have a new 10 years warranty. Once installed a battery system matching the Huawei inverter can then be added at installation stage, further 5kwh batteries can be at a time to suit in the future to increase the storage capacity of your system.
