

Huawei installs solar panels in Croatia

Overview

Will Croatia get 1 GW of solar power by 2025?

Croatia is on pace to surpass 1 GW of solar power by 2025, thanks to a surge in installations and supportive government policies. This growth is part of the country's broader commitment to renewable energy and aligns with EU targets to boost the share of renewables in electricity generation.

Will Croatia build a 950 MW solar facility?

A proposal to build a 950 MW solar facility has been submitted to the Croatian authorities by El Sun Energy d.o.o. The solar park is planned to be located in the county of Šibenik-Knin in southern Croatia.

Why should Croatia invest in solar energy?

By continuing to invest in solar, Croatia is becoming a regional leader in renewable energy. Its successful expansion of solar capacity can serve as a model for other nations transitioning to cleaner energy sources. For more insights and updates on Croatia's solar energy development, you can visit [PV Knowhow](#).

Why are solar projects growing in Croatia?

The government's commitment to a favorable investment climate has been a critical driver of this growth. Incentives such as feed-in tariffs, tax breaks, and subsidies for solar projects are designed to attract more investors and developers to the Croatian solar market.
