

Integrated solar container battery in Manchester UK

Overview

Who are Manchester renewables?

Here at Manchester Renewables we supply and fit all of Manchester with renewable energy products, from Solar PV Systems, EV Charging Points, Battery Storage and Heat Pumps. Our expert teams are all MCS & RECC accredited, providing you with the highest quality installations, using the best and most efficient systems on the market today.

Should I use battery storage with a solar PV installation?

This means it isn't going back on the grid during the day and is ready to use when required. We would always recommend Battery Storage with a Solar PV installation. This optimises the installation and the energy it's providing. This can reduce your energy bills, with some customers reducing bills by 80% per month.

What types of EV chargers do Manchester renewables provide?

At Manchester Renewables we provide all types of EV Chargers, supplying and fitting all models from domestic 7.2KW to commercial 3 phase 22KW chargers. The Battery Storage allows you to store the excess energy your system is producing. This means it isn't going back on the grid during the day and is ready to use when required.

What is energy for a sustainable & environmentally friendly Manchester?

Sustainable, reliable & affordable energy systems, Manchester renewables! Energy for a sustainable and environmentally friendly Manchester. We are committed to helping Manchester transition to zero-carbon lifestyles and help households save energy.
