

# Investment value of New Zealand energy storage power station

## Overview

---

What is the NZ battery project?

The NZ Battery Project was set up in 2020 to explore possible renewable energy storage solutions for when our hydro lakes run low for long periods. A pumped hydro scheme at Lake Onslow was one of the options being explored. The Government stopped the Lake Onslow investigations in late 2023.

Why is New Zealand a good place to invest in renewables?

Structured for growth. Global demand for renewables is skyrocketing, and New Zealand is perfectly positioned to meet it, thanks to our abundance of accessible resources generated by hydro, wind, solar and geothermal.

Can New Zealand lead the charge in sustainable venture investment?

With its abundant natural resources, including wind, solar, and hydroelectric power, New Zealand is well-positioned to lead the charge in sustainable venture investment. This guide explores the various renewable energy initiatives underway, highlighting the potential for growth and innovation in the sector.

How can I view information about Generation Investment in New Zealand?

The dashboard provides an opportunity to view information about generation investment in New Zealand in different ways. For example, grouping by developer type shows that the proportion of projects developed by independent investors has increased significantly.
