

Iraq solar container outdoor power

Overview

Will totalenergies build a solar power plant in Iraq?

French energy major TotalEnergies will build a 1-gigawatt solar power plant in Iraq as part of a cluster of contracts it was awarded in 2021 for an integrated project that entails a total investment of \$27 billion over 30 years.

Does Iraq have a solar power plant?

The contracts also cover a water intake project for injection into oil reservoirs. The solar power plant will be Iraq's first utility-scale solar power project. While the country has several other solar plans in the pipeline, the TotalEnergies project is the first to proceed to the implementation phase.

Will Iraq open its first solar plant?

KARBALA, Iraq (AP) — Iraq is set to open the country's first industrial-scale solar plant Sunday in a vast expanse of desert in Karbala province, southwest of Baghdad. It's part of a new push by the government to expand renewable energy production in a country that is frequently beset by electricity crises despite being rich in oil and gas.

Why is Iraq implementing large-scale solar power projects?

The projects are part of an ambitious plan to implement large-scale solar power projects in an effort to ease the country's chronic electricity shortages. Deputy Minister of Electricity Adel Karim said Iraq has solar projects with a combined capacity of 12,500 megawatts either being implemented, in the approval process, or under negotiation.
