

Ireland electric sanitation vehicle solar container lithium battery pack

Overview

How are batteries recycled in Ireland?

The current battery recycling channels in Ireland are summarised in Figure 1. Some specialist or industrial Li-ion batteries may lie outside of the main schemes for waste batteries. This includes electric vehicle (EV) batteries. The recycling of waste EV batteries is managed through a separate compliance scheme, ELVES.

Can Li-ion batteries be stored in Waste Electrical and electronic equipment (WEEE)?

Li-ion batteries may arise within waste electrical and electronic equipment (WEEE), however, this guidance is focused on the safe storage of Li-ion batteries at waste handling facilities and is not intended to address the wider measures required for the safe management of WEEE.

What are battery producers' obligations in Ireland?

Battery producers in Ireland have obligations (collection and recycling and reporting) under the European Union (Batteries and Accumulators) Regulations 2014, as amended.

Can EV batteries be recycled?

Some specialist or industrial Li-ion batteries may lie outside of the main schemes for waste batteries. This includes electric vehicle (EV) batteries. The recycling of waste EV batteries is managed through a separate compliance scheme, ELVES. ELVES is the compliance scheme for End-of-Life Vehicles (ELVs) in Ireland.

Solutions for end-of-life Li-ion batteries , Reneos

Dec 7, 2025 · Reneos disposes of your batteries in a safe and compliant way. We have the expertise to deal with batteries from all kinds of vehicles and industries. We have solutions for ...

New batteries based on rusting will help ...

Jun 5, 2025 · Lithium-ion batteries are more suitable for cases where size and weight are a priority, like electric vehicles and phones, whereas iron ...

Lithium Ion Battery For Electric Vehicle ...

Explore the perfect solutions of lithium ion battery for electric logistics vehicles, electric pick-up trucks, electric sanitation vehicles, and electric ...

Ireland electric sanitation vehicle lithium battery pack

Contact Belfast: +44 28 9075 6060 or bsales@batteryworld.ie The majority of electric vehicles are powered by a lithium-ion battery pack, the same type of battery that powers common ...

Enva unveils certified battery safe box to ...

Jul 15, 2025 · New fire-resistant container aims to enhance the safe transport of waste lithium-ion batteries across the United Kingdom and Ireland.

BSLBATT

Dec 6, 2025 · As a leading manufacturer and supplier of lithium batteries, BSLBATT has consistently been at the forefront of ...

Guidance for Long Life Lithium Batteries & Electric Vehicle Batteries

Dealers, Importers & Distributors of Lllb & Ev Batteries
How to Recycle An Ev Battery? Ev Battery Guidance
What Happens Next? Follow manufacturers instructions for safe removal, discharge & storage of these batteries
Once removed, it is recommended to quarantine the battery away from the main workshop & showroom. If placing in a storage container, this container must not be adjacent to any buildings or vehicles
If the battery is to be stored outside, it must be protected from the elements with appropriate ...
Follow manufacturers instructions for safe removal, discharge & storage of these batteries
Once removed, it is recommended to quarantine the battery away from the main workshop & showroom. If placing in a storage container, this container must not be adjacent to any buildings or vehicles
If the battery is to be stored outside, it must be protected from the elements with appropriate waterproof covering
The battery should be monitored on a regular basis. Monitoring should include thermal, odour and noise levels as these are all indicators of a potentially damaged battery. The state of charge (SoC) See more
