

Italian solar container BESS

Overview

This modular marvel (think energy storage Lego for neighborhoods) lets communities from Sicilian coasts to Tuscan villages store solar power, slash grid bills, and hit 90% self-sufficiency. What is a Bess project in Italy?

54.4 MW BESS in Santeramo in Colle, Apulia – awarded to Jupiter Srl, this project adds crucial storage capacity in one of Italy’s sunniest regions, rich in solar PV resources. 50 MW “Stornara” BESS in Foggia, Apulia – developed by Atlas Storage 5 Srl, the project reinforces the southern grid’s capacity to absorb excess renewable production.

Where are Italy's large-scale battery storage projects located?

Between August 7 and 11, 2025, Italy’s Ministry of Environment and Energy Security (MASE) gave the green light to six large-scale battery storage projects located in Lazio, Campania, Basilicata, and Puglia. A decree issued on August 7, 2025, authorizes a 120 MW battery energy storage system (BESS) developed by BESS Sessa Aurunca S.r.l.

Does Italy have a new battery energy storage system?

Italy has taken a major step forward in its energy transition efforts, giving the green light to 361 MW of new battery energy storage systems (BESS) spread across three regions—Lazio, Puglia, and Sardinia.

What is Melfi Bess 2?

The facility will be built on agricultural land in Sessa Aurunca, near Caserta, and will feature 392 battery containers and 49 power conversion systems (PCS). It will connect to the grid via a new substation. In a separate decree on the same day, MASE approved a 280 MW battery system in Melfi, Potenza, known as Melfi BESS 2.
