

Kenya Mombasa Energy Storage Standards

Overview

Who is the implementing agency for the Kenyan battery energy storage system?

The Kenya Electricity Generating Company PLC (KenGen), has been designated to be the Implementing Agency for the Kenyan Battery Energy Storage System (BESS), which is part of the Kenya Green and Resilient Expansion of Energy (GREEN) program, funded by the World Bank.

How can the port of Mombasa transition to green energy?

Technical support for a feasibility study to identify viable green energy solutions at the Port of Mombasa lays a major foundation for such a transition. This project shall create new job opportunities around green technologies and renewable energies and associated value chain resulting in increased income levels and poverty reduction.

What is net metering in Kenya?

Under net metering consumers feed excess electricity from their renewable captive sources into the grid, offering a cost-effective and sustainable energy solution. This mechanism enhances energy security and sustainability while diversifying Kenya's energy mix. The Energy (Net Metering) Regulations, 2024 were published in June 2024.

What is Kenya's Energy Policy 2025–2034?

As Kenya progresses towards achieving sustainable and inclusive development, energy remains a key driver for economic growth. The National Energy Policy 2025–2034 is therefore a tool in spearheading our country's vision of equitable energy transition, focusing on innovation, resilience, and sustainability to meet the needs of all Kenyans.
