

# Latest planning of Estonian energy storage power station

## Overview

---

How will a battery energy storage park work in Estonia?

The battery energy storage park and its substation will be connected to the electricity transmission network using a 330kV AC underground cable, marking a first in Estonia. Baltic Storage Platform confirmed that the BESS will seek to ensure the stability and resilience of the Estonian electricity grid.

Where is Estonia's largest battery storage facility located?

The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid. Estonian state-owned energy company Eesti Energia has inaugurated the nation's largest battery energy storage facility at the Auvere industrial complex in Ida-Viru County.

How much will Estonia's nuclear power plant cost?

He said on no specific reactor has been chosen yet. The plant is expected to be built by private investors and company Fermi Energia has been at the forefront of Estonia's nuclear power plant discussions. The project is expected to cost €2 billion euros and small modular reactors with a capacity of 300 megawatts are being considered.

How has the transition to a 15-minute balancing period impacted Estonia's energy storage?

State-owned energy company Eesti Energi management board member Kristjan Kuhi recently highlighted to Energy-Storage.news Premium that the transition to a 15-minute balancing period and the desynchronisation of the Baltic electricity system from the Russian grid have spurred growth in Estonia's energy storage sector.

## Latest planning of Estonian energy storage power station

---

Estonia: Utility-scale battery storage to ...

Nov 5, 2024 · Corsica Sole and Evecon are planning the construction of two battery storage power plants with a total capacity of 400 MWh in Estonia. ...

---

Groundbreaking for 400MWh BESS in Estonia

Oct 4, 2024 · Baltic Storage Platform, a joint venture (JV), has broken ground on two new 200MW/400MWh battery energy storage systems (BESS) in ...

---

Tallinn Power Storage Project: A Blueprint for Grid-Scale Energy

As Europe races toward 2030 renewable targets, the Tallinn Power Storage Project has become a litmus test for grid-scale battery viability in northern climates. Operational since Q4 2024, this ...

---

Estonia is investing in energy storage. A milestone towards a ...

Oct 7, 2024 · Construction has begun in Estonia on two energy storage facilities with a total capacity of 200 MW and 400 MWh. On Thursday, a symbolic groundbreaking ceremony took ...

---

Estonia: Utility-scale battery storage to stabilize the power grid

Nov 5, 2024 · Corsica Sole and Evecon are planning the construction of two battery storage power plants with a total capacity of 400 MWh in Estonia. They are intended to help stabilize ...

---

Estonia's first pumped-hydro energy storage project secures ...

May 17, 2024 · Estonia's first long-duration energy storage project, Zero Terrain Paldiski, obtained the main building permits in December 2022. Construction of the country's first pumped-hydro ...

---

Estonia inaugurates its largest battery energy storage project

Mar 27, 2025 · The flagship battery storage project commenced operations on February 1, only days before cutting ties with the Russian power grid.

---

Estonian Government approves Long-Term Energy Development Plan

The Estonian coalition agreed on the long-term energy development plan, which includes a measure to support long-duration energy storage. On 27 January, the Estonian government ...
