

# Layout requirements for UPS battery cabinets

## Overview

---

How do I set up an UPS battery room?

Open-rack battery rooms must be adjacent to the UPS room. Battery cabinets must be adjacent to the UPS equipment. Cable lengths from multiple cabinets should be kept as nearly identical as possible to prevent voltage drop variations. One cabinet should be able to hold at least one complete string of cells.

How to install ups?

and unpacking Use the following basic sequence of steps to install the UPS: Create an installation plan for the battery cabinet (Chapter 3). Prepare your site for the battery cabinet (Chapter 3). Inspect and unpack the battery cabinet (Chapter 3). Unload and install the battery cabinet, and wire.

How close should a battery be to an ups?

As mentioned earlier, batteries should be as close as possible to the UPS. The reasons are twofold: Longer cable runs mean greater potential for damage and/or short circuit. Open-rack battery rooms must be adjacent to the UPS room. Battery cabinets must be adjacent to the UPS equipment.

How do I install a battery cabinet?

Between each battery cabinet and the UPS or battery disconnect using conduit. Battery cabinets may be installed adjacent to the UPS or in a separate location. If the battery cabinet is installed adjacent to the UPS, the recommended installation location for the battery cabinet is on the right side of the UPS cabinet.
