

Lifepo4 power station factory in Chile

Overview

What is a LiFePO4 power station?

A LiFePO4 power station is a type of portable power station that uses lithium iron phosphate (LiFePO4) batteries. These power stations are ideal for certain environments, particularly hot areas, due to their stable chemistry. The most popular brand using LiFePO4 batteries is Bluetti.

Why is CORFO building a new electrolyzer facility in Chile?

The electrolyzer production facility, designed to support Chile and the broader Latin America's growing green hydrogen industry, will be integral to the country's efforts to become a leading market of sustainable energy solutions. The financing program from Corfo will expeditiously advance the development of this new facility.
