

Lithium-ion battery planning for solar container communication stations in Argentina

Overview

Will Argentina start a lithium battery factory in Latin America?

(Image: Mariano Garcia / Alamy) Argentina will start operations at the first lithium battery cell factory in Latin America before the end of the year. The country aims to boost its position in the region's electric transport and energy storage markets, and go beyond simply producing the lithium that is critical to their growth.

Why should you buy lithium in Argentina?

Argentina's vast lithium resources are critical to meeting surging global demand primarily for electric vehicles and large-scale energy storage systems. With this, Argentina is positioned to be a key supplier of high-quality, cost-effective lithium. * Lithium Argentina's lithium carbonate production expectations on a 100% basis.

Could a new lithium plant add value to Argentina's lithium industry?
