

# **Lithuania Power Plant Energy Storage Project**

## Overview

---

What is E-Energija doing in Lithuania?

E-energija Group has commenced construction on Lithuania's largest battery energy storage system (BESS) project, the 120MWh Vilnius BESS. This facility, which is set to become Lithuania's first commercial battery storage site, will significantly increase the country's storage capacity by around 50%.

Did renewables play a significant role in the Lithuanian electricity sector?

A concession agreement was signed in the following year ( Ministry of Energy, 2012 ). Here it needs to be highlighted that in the years leading to the new strategy, renewables already played a significant role in the Lithuanian electricity sector (see Fig. 1 ).

Why does Lithuania need reliable energy storage?

Uloza pointed to the growing demand for reliable energy storage as Lithuania's renewable energy sector expands.

What is Lithuania's first commercial battery storage site?

This facility, which is set to become Lithuania's first commercial battery storage site, will significantly increase the country's storage capacity by around 50%. The project, located near the capital city of Vilnius, is expected to be operational by the end of 2025.
