

Lora outdoor base station

Overview

What are outdoor LoRaWAN gateways?

These enterprise-grade outdoor LoRaWAN gateways offers a simple, quick and plug-and-play experience and are compatible with Kerlink best-in-class network performance monitoring and diagnostics tools. End-users enjoy a wide set of technical and operational information to ensure stability, availability and reliability of IoT networks.

Where can a Lora transceiver be deployed?

The LoRa transceiver can be deployed as part of an existing telecommunications tower, individual stand or wall mount. At MultiTech, we're committed to providing you personalized attention and quality service while providing you a quick response to your product support needs.

What are Kerlink carrier-grade outdoor LoRaWAN gateways?

Kerlink carrier-grade outdoor LoRaWAN gateways combines excellent wireless radio performance, purpose-built IP67 ruggedized enclosure and flexible modularity. Extremely reliable, their enterprise-grade conception grants broad coverage for mission-critical connectivity.

Why should you choose Kerlink outdoor LoRaWAN gateways?

This superior performance and best-in-class manageability and provisioning are now made available for all Kerlink customers, granting steady performance over time. Highly available and scalable, Kerlink outdoor LoRaWAN gateways truly grant the lowest total cost of operations (TCO) over time. You have a project?
