

Malaysia Penang Energy Storage New Energy Investment

Overview

Who is Eve energy storage Malaysia?

The project will be executed by its wholly-owned subsidiary in Malaysia, Eve Energy Storage Malaysia Sdn Bhd, located in Kulim City, Kedah State, as an expansion of its existing production facility. The construction period will not exceed 2.5 years, with a land area of about 484,000 square meters.

Will Eve energy build a new battery project in Malaysia?

Eve Energy plans to build a new battery project in Malaysia to further expand its footprint in Southeast Asia. The Chinese battery giant plans to build a project in Malaysia for the production of energy storage batteries, with an investment of no more than RMB 8.65 billion (\$1.2 billion), according to a stock exchange announcement on June 27.

Why is Malaysia launching a solar energy storage system?

Since peninsular of Malaysia has high solar potential, hence the government plans to install utility-scale battery energy storage systems to support solar power generation in the country . Additionally, the renewable energy capacity target is predicted to be achieved with the introduction of BESS into the power system.

Why should Malaysia invest in rooftop solar?

This will attract more consumers to install rooftop solar packages, where they can store energy during low-load periods and sell energy during peak periods. This will help Malaysia to implement more renewable energy systems, thus reducing the dependency on coal in the next 20 years.
