

Mali solar container communication station inverter not approved

Overview

Do Chinese solar power inverters have undocumented communication devices?

However, undocumented communication devices have reportedly been found in some Chinese solar power inverters. And over the past nine months, such devices—including cellular radios—have also been found in some batteries from Chinese suppliers.

Could Chinese solar power inverters destabilise power grids?

Solar panels are seen with a view of the neighbourhood and lower Manhattan in New York in this August 2022 file pic by Reuters. Western nations have raised a security alert after US experts found “rogue communication devices” in Chinese solar power inverters, amid concern they could be used to destabilise power grids.

Do Chinese solar power inverters have a firewall?

While such inverters allow remote access for updates and maintenance, utility companies usually install firewalls to block direct communication back to China. However, undocumented communication devices have reportedly been found in some Chinese solar power inverters.

Are Chinese-made solar inverters a supply-chain vulnerability?

Leading renewable energy operators worldwide are confronting a disturbing supply-chain vulnerability: undocumented communication modules found in Chinese-made solar inverters and batteries.

Mali solar container communication station inverter not approved

Rogue Communication Devices Found in Chinese Solar Inverters

May 14, 2025 · In November, a commercial dispute between two inverter suppliers - Sol-Ark and Deye - led to solar power inverters in the US and elsewhere being disabled from China, ...

Approved inverters

The Clean Energy Council maintains a list of compliant inverters and power conversion equipment (PCE) that are approved for ...

Chinese solar inverters found to have rogue components

May 16, 2025 · Rogue communication devices not disclosed in product documents have been discovered in some Chinese solar power inverters in the US, Reuters reported this week citing ...
