

# Malta solar panels solar power generation

## Overview

---

Is solar power growing in Malta?

Power generation from photovoltaic (PV) solar cells is increasing in Malta, with total kWp (kilowatt peak) capacity growing by 16.9% from 2017 to 2018. Domestic rooftop installations account for the overwhelming majority of PV installations, and hold 52.1% of total kWp capacity.

What are the new grant schemes for solar energy in Malta?

The government of Malta launched six new grant schemes to incentivise the production, storage and use of renewable energy as part of the €9 million investment. The aid for solar energy will accommodate households with already existing systems to utilise battery powered systems and help new families setup the installation of new solar panel systems.

How many PV installations are there in Malta?

The stock of PV installations amounted to 34,955 of which 85.6 per cent were installed in the region of Malta and 14.4 per cent were in the Gozo and Comino region. The Northern Harbour and Western districts accounted for 37.5 per cent of the total stock of PV installations with 6,848 and 6,270 installations respectively.

Who are authorised partners of SunPower PV modules in Malta?

Renergy Limited are the authorized partners of SunPower PV modules in Malta". SunPower panels come with 25 years warranty on product and performance. For more information and specifications of the SunPower panel [click here](#).
