What is a Marseille tile?

Marseilles tiles are derived from the French Gilardoni tile produced from the 1840s. The Gilardoni tile was unique in that it was the first interlocking tile to be given a rib in the centre of the tile. The central rib strengthened the tile allowing them to carry the weight of a person making installation and maintenance easier.

What are solar tiles?

Solar tiles are roofing materials that can produce energy directly from sunlight. Solar tiles are integrated into the roof itself and function as both a roofing substance and a source of energy, as opposed to conventional solar panels, which are mounted on top of an existing roof.

Who makes sunstyle® roof tiles?

SunStyle International, a subsidiary of the Akuo Group, is a French co-designer and manufacturer of solar photovoltaic roof tiles. In addition to their roofing function, the SunStyle® tiles combine power generation with a contemporary style to create buildings that meet environmental challenges.
