

# Mobile emergency communication command base station

## Overview

---

What is a Mobile Emergency Response Center?

Also known as a mobile emergency response center, the unit provides emergency communications that help better control a critical situation in a range of emergencies.

What is a portable emergency response center?

The Portable Emergency Response Center is a small tactical mobile communication network that can be easily transported and deployed anywhere in the world with satellite access. Mobile hot spot with dual sim LTE connectivity including FirstNet Band 14. Internal POE switch providing 4 POE ports for cameras, computers, and hosted VoIP phones.

What is a mobile command center?

Our Mobile Command Centers, also known as Mobile Emergency Response Centers (MERC™), are deployed in countries around the world. Our clients range from the private sector to local, state and federal governments. We are trusted by some of the largest organizations in the world, because of our extensive experience in telecommunications technology.

What is a mobile command unit?

Mobile command units are equipped with generators to keep power running along with satellite dishes to stay connected to emergency teams, or even other units in the area. Digi Safe™ includes fast, reliable mobile access routers that support the full range of connectivity needs in mobile command centers.
