

Mobile power bank is portable and convenient

Overview

Do you need a portable battery or power bank?

Watching your phone or tablet steadily run out of power when you're nowhere near an outlet is stressful. But there's an easy solution: a portable battery or power bank. They are available in various sizes and capacities, and can include handy features such as fast charging and multiple ports.

How much power does a power bank give a phone?

Our testing shows that a power bank can offer your phone between 70-80% of the power it contains, or more depending on the battery. It loses the rest due to the inefficiency of the power transfer. That means a 5,000 mAh battery can fully charge a phone with a 3,500 mAh battery, like an iPhone 16.

Which power bank is best for iPhone?

1. Anker MagGo Power Bank (10K, Slim) The Anker MagGo Power Bank (10K, Slim) is our top pick for a reason: it combines shockingly good performance with a premium, portable design. Its charging capability is its standout feature, proving to be the fastest MagSafe power bank we've ever tested, capable of charging an iPhone in under two hours.

Should you use a power bank?

Whether you own one of today's best iPhones or best Androids, you could use a power bank. Today's top phones can hold a charge longer, but if you take a lot of photos and use the newest AI features, you'll drain the battery fast.
