

# Mobile rechargeable energy storage equipment

## Overview

---

Are mobile battery energy storage systems a viable alternative to diesel generators?

Mobile battery energy storage systems offer an alternative to diesel generators for temporary off-grid power. Alex Smith, co-founder and CTO of US-based provider Moxion Power looks at some of the technology's many applications and scopes out its future market development.

What is mobile energy storage?

Mobile energy storage provides a clean alternative to diesel generators for locations with no grid connection or only a weak one. Grid congestion creates increasingly long waiting times for companies who want to increase their grid connection. Mobile energy storage is the temporary solution to keep your business running.

What is terracharge battery energy storage?

The TerraCharge battery energy storage system by Power Edison can make utility-scale energy storage mobile, flexible, and scalable. Power Edison, a provider of utility-grade mobile energy storage solutions, has developed the TerraCharge platform, their newest trailer-mobile battery energy storage system (BESS) for utility-grade applications.
