

Mobile solar lighting

Overview

The mobile solar light tower is a portable lighting system integrating solar panels, LED lighting, intelligent control, 4G monitoring system, communication base station, and a hybrid battery storage of solar and grid electricity, suitable for various temporary or long-term lighting needs. What is a mobile solar light tower?

Greenshine Mobile Solar Light Towers come in various configurations to meet your specific lighting and operational needs. The mobile solar tower is powered by the sun, meaning complete silence and no vibrations. Greenshine batteries should be replaced every 5-7 years, keeping maintenance costs low.

What are greenshine mobile solar light towers?

Greenshine mobile solar light towers extend up to 20 feet and retract to 6'3", lighting up large areas while requiring no connection to the power grid. These towers include different operating modes like "Dusk 'til Dawn" and other custom settings accessible through the Greenshine Connect App.

What is a SWT mobile light tower?

SWT Mobile Light Tower As the maker of the world's first LED light tower, SWT leads the industry in innovative light tower solutions. Our vertical mast and compact light towers have revolutionized industrial mobile lighting. Easy to setup, operate and maintain, our light towers provide maximum power in a minimal footprint.

What is a metal halide electric mobile light tower?

A Metal Halide electric mobile light tower provide maximum power in a compact footprint, running longer. This heavy-duty metal halide electric light tower is powered by a Kubota diesel engine that provides powerful illumination and a stable wide wheelbase. Durable, 359° rotation, powerful illuminating LED light tower with pipe structure.
