

# **Myanmar 2025 Energy Storage Power Station**

## Overview

---

What is Myanmar power & solar energy storage lighting Expo 2025?

(Xinhua/Myo Kyaw Soe) YANGON, May 1 (Xinhua) -- The second Myanmar Power and Solar Energy Storage Lighting Expo 2025 kicked off on Thursday in Yangon. The expo featured a wide range of products, including lithium batteries, inverters, solar panels, power stations, generators, solar fans, solar lights, pumps, and other power products.

Will Myanmar increase power supply in 2030?

be avoided. According to the scheme of the National Electricity Master Plan by MOEE (Ministry of Electricity and Energy) in Myanmar which JICA (Japan International Cooperation Agency) assisted to formulate, total power demand in 2030 is forecasted to increase up to around 14,500 MW at maximum, therefore enhancement of power supply is.

How will electricity be supplied in Myanmar?

Electricity will be supplied for local use in accordance with the ratio of shares held by Myanmar in the joint-venture company. The agreement to set up this company is an important step in the implementation of the project. (BKK Post, 18/12/02).

How much gas will Myanmar produce in 2025?

Myanmar's Natural Gas Master Plan forecasts total domestic gas production at 1,350 mmcfd, or 13.95 bcm, in 2025, and 810 mmcfd, or 8.4 bcm, by 2040. While new gas developments are being explored, this new production will not offset the decline in production from existing fields.
