

Myanmar Outdoor Energy Storage Policy

Overview

What is the 2015 Myanmar energy master plan?

Tell us and we will take a look. The 2015 Myanmar Energy Master Plan is put forward by the Asian Development Bank and Myanmar Ministry of Energy in order to analyse energy demand development from 2014 to 2035 along five supply expansion scenarios.

What is Myanmar's energy policy?

Myanmar's energy policy is generally aimed at ensuring energy independence by increasing national production of available primary energy resources through intensive exploration and development activities.

Does Myanmar need a comprehensive energy plan?

Myanmar needs to establish a comprehensive integrated energy plan to guide the development of the energy sector, including an energy efficiency labelling programme for energy service companies and appliances.

Does Myanmar need a regional energy sector?

The Energy Sector has great potential for further regional collaboration. If Myanmar is able to enhance renewable energy production beyond local uptake, it could export energy to a number of neighboring ASEAN and other Asian countries through the use of „smart“ regional grids.
